Is Your Idea Worth $5000 this summer?
Propose It – Code It – Load It
Partner with beagleboard.org for the Google Summer of Code

Apply Now thru April 8

Why partner with beagleboard.org for your summer of code success?

- Uniquely tiny & low-power ARM platform capable of running desktop Linux apps
- Advanced multiprocessor, signal-processing, and low-power technology
- Build on Android, Ubuntu, Ångström, FFmpeg, or hundreds of other projects
- Highly active community and mentors experienced in embedded systems
- Free board and cables for every approved project
